

REMARKS

In response to the restriction, the applicant elects Group I (claims 1 and 3).

However, the restriction is traversed as to the retained claims 4, 5 and 6 (Groups II, III and part of IV) by making these claims depend from claim 1. All the claims thus now relate to a wheelchair with driven caterpillars and a caster. Additional limitations of the claimed wheelchair in respect of the chair body of claims 1 and 4, caster of claims 1 and 5, and drive wheel ratchet device of claims 1 and 6 make such dependence proper and not restrictable other inventions.

Reconsideration and allowance are, therefore, requested.

Respectfully submitted,

William R. Evans
